

CARL — NEW PRODUCT LINE

CARL combines powerful hand drying and touch-free dispensing in one sleek, modern design, delivering exceptional hygiene solutions for commercial and public restrooms. Designed for efficiency, durability, and aesthetic appeal, CARL meets the highest standards in both performance and style.

Hand dryer highlights

- 10–15 sec fast drying with built-in HEPA H13 filter
- Brushless motor – up to 3x longer lifespan
- IR sensor & touch-free operation

Touch-Free dispenser highlights

- Compact and space-saving
- Intelligent sensor with LED status
- One dose per activation

CARL is available in: Brushed stainless steel, white, black, RAL Classic colours and selected PVD coatings.

Why CARL?

Combines fast, hygienic hand drying and touch-free dispensing in one modern solution. Space-saving design for high-traffic public and commercial restrooms.

Easily integrates into a wide range of facilities, from boutique hotels to airports.

CARL is the smart choice for distributors and retailers looking to offer a reliable, hygienic, and modern restroom solution.

Introductory offer

Purchase a CARL hand dryer and a CARL dispenser together – and receive an additional 10% discount.
