

ENHANCE YOUR RESTROOM PROJECTS WITH DAN DRYER PANEL

Introducing PANEL – where sleek design meets efficiency and hygiene in a single solution. Seamlessly blending minimalism with functionality, PANEL elevates any restroom experience.

The new innovative built-in solution with a mirrored front from DAN DRYER seamlessly integrates handwashing and drying directly at the washing station, making it ideal for high-traffic areas such as airports, shopping malls, and offices. Pair PANEL with DAN DRYER WATER TAPS, available in both wall- and deck-mounted options for a fully coordinated and efficient washroom setup.

Features & benefits:

- Handwashing and drying in one place
- Stylish system integrated behind the mirror
- Touch-free hand dryer and soap dispenser (liquid or foam)
- Maintains a clean and organised restroom environment
- LED indicators on the mirror for effortless and intuitive operation
- Fully adapted for the U.S. market, including power compatibility
- Easy installation

Customisable to fit your project:

- PANEL with built-in hand dryer and soap dispenser (liquid or foam)
- PANEL with built-in soap dispenser (liquid or foam) and paper towel dispenser
- PANEL is available in two sizes: 23.62" x 31.50" / 26.38" x 31.50"
- Infill panels in two sizes: 7.87" x 31.50" / 15.75" x 31.50"

PANEL – when design meets practicality.
